TITLE: Grit drive roller for eliminating ink smears on printed documents - consists of grit particles of high harness and sharpness which prevent adherence of ink on roller

PATENT-ASSIGNEE: ANONYMOUS [ANON]

PRIORITY-DATA: 1989RD-0298056 (January 20, 1989)

PATENT-FAMILY:

RD 298056 A	February 10, 1989	N/A	007	N/A

INT-CL (IPC): B65H000/01

ABSTRACTED-PUB-NO: RD 298056A

BASIC-ABSTRACT:

The small surface area of the grit prevents the adherence of ink (3) onto the roller while the sharp grit particles (2) enables it to transport paper (4). Selecting the size and amount of coverage of the grit particles has to be tailored from the amount of pressure necessary to reliably drive the thickest to the thinnest document without any puncturing.
